

Dunblane Development Trust

Community benefit from development in Dunblane

Conscious of the fact that opinion in the Town is divided, neither DDT nor Dunblane Community Council has taken a formal position on

- whether or not there should be a further supermarket in Dunblane
or
- which of the three proposed sites would be preferable

What DDT/DCC are doing jointly, however, is seeking to ensure that if one of these proposals does go ahead that some form of community benefit comes to the Town. So far a team representing both bodies has met with the Council's planners to seek advice on negotiating community benefit and they have met with Gladman in relation to the planning application for the supermarket development of the Barbush site. Meetings with other potential developers will be sought once planning applications have been submitted.
